HOD	Department of Business Management, M.P. Govt. College Amb	15-07-2010	At Present	15

Research Experience

Research Interests : Ethnicity, subcultures, gender roles, historical cohorts, socioeconomic status, and economic conditions.

Brief Research Profile : During my research i worked on Micro, Small and Medium Enterprises has an important part to play in shaping society's economy. Every country depends on its industry. The company provides the country with the necessary financial aid. Businesses, like large industries and small-scale industries, depend on their enterprises. The person responsible for successful business performance is called the entrepreneur and the skill, knowledge and attitude of the entrepreneur required to perform and achieve successful business results is his skill. Most international studies were conducted and a number of adapted studies were presented, which relate to competence and its Indian context relevant parameters. It has been found that in Una district and Himachal Pradesh, there are not enough studies on the subject. In the present study the main reason for the successfully running business in select MSMEs of Una district of Himachal Pradesh is to discover the entrepreneurial competence of entrepreneurs in particular, medium and medium

sized industries in the given social and economic environment of the country.
